Murray Louis 1995

Dance is the art of humanity. It speaks with the human body, the human heart and the human mind and imagination, all of which define the human condition.

Dance is a remarkable language. It can speak to all cultures through the literal and the abstract, the playful and the serious, the sacred and the social. When the dancing body reaches the state of artistry, it becomes divine.

Dance is a living activity which needs only the will to dance in order to dance.
